

Report Card for Louisiana Infrastructure
Levees and Flood Control Systems Committee

Levee/Flood Control System
Information Questionnaire

General

Name of system/segment: _____
Owner/Operator: _____
Representative: _____
Date completed: _____

Miles of levee segments: _____
Miles of cantilever I-walls: _____

Capacity

USACE Authorization (Hurricane Protection, MRT, etc.):

Do systems meet 100-yr storm event level (1% annual probability of exceedance)?
Y/N: _____

Are systems FEMA certified?
Y/N: _____

If systems are not FEMA certified, is certification planned?
Y/N: _____

Comment:

FOR NON-CERTIFIED SYSTEMS:

FEATURE	100-YEAR ELEVATION	ACTUAL ELEVATION	DATE LAST SURVEYED
Levee Segments			
Floodgates			
I-walls			
Locks, Sector Gates, Barge Gates, and Pump Stations			

Capacity Comments:

Condition

Current periodic inspection report source (state, parish, or levee district): _____

Date report was completed: _____

FEATURE	RATING	
	(A, M, U, OR 1-5)	OTHER
Levee Segments		
I-walls		

For I-walls protection, number of miles with unsupported heights of 4 feet or more:

Notes:

Number of pipeline crossings	TOTAL	SUBSTANDARD

Condition Comments:

Funding

Are funds sufficient to perform O&M?

Y/N: _____

Funding Source:

Comment:

Is funding available to meet O&M requirements for upgrades currently under construction or planned?

Y/N: _____

Comment:

Are funds available for Capital Improvements/Upgrades and/or Future Lifts?

Y/N: _____

Funding Source:

Comment:

Are there currently any un-funded improvement projects?

Y/N: _____

Comment:

Have future needs been identified?

Y/N: _____

Description:

Is funding for future needs projects available?

Y/N: _____

Funding Source:

Other Future Needs Comments:

O&M

Is adequate equipment and personnel in place to meet O&M obligations?

Y/N: _____

Comment:

Other O&M Comments:

Public Safety

What is the population protected by (or parts of) this system? _____

What is the land area protected by this system? _____

What critical infrastructure is protected by this system? _____

Public Safety Comments:

Resilience

Are the I-walls armored with scour protection for overtopping?

Y/N: _____

Comment: _____

Are the levees properly vegetated?

Y/N: _____

Comment: _____

Are there currently any seepage issues?

Y/N: _____

Comment: _____

Resilience Comments:
